## Internal Resident Affairs Division

Document Classification: GENERAL EMPLOYEE | Date of Issue: May 2076 | Vault File Ref: VT-RA-0076-COC

## VAULT DWELLER CODE OF CONDUCT & HYGIENE STANDARDS

*Effective Immediately Upon Vault Sealing | Supersedes All Prior Surface-World Norms*

Welcome, Vault Dweller. You have been selected — through rigorous scientific lottery — to participate in humanity's greatest survival experiment. The rules contained within this document are not suggestions. They are the pillars upon which civilisation shall be rebuilt. Compliance is comfort. Comfort is survival. Vault-Tec thanks you for your cooperation.

### SECTION 1: RATIONING PROTOCOLS

Vault-Tec's nutritional science division has calculated precise daily caloric allocations for each resident tier. All consumable items — including but not limited to: Brahmin jerky, Cram, Fancy Lads Snack Cakes, and Nuka-Cola — are subject to the Weekly Allocation Register (WAR). Residents must present their Pip-Boy at Dispenser Station C-7 each Monday between 06:00 and 06:45 to receive their ration packet.

| Resident Tier       | Daily Calories | Nuka-Cola (Weekly) | Bonus Rations      |
|---------------------|----------------|--------------------|--------------------|
| Overseer            | 2,800 kcal     | 12 bottles         | Brahmin steak (x2) |
| Senior Staff        | 2,200 kcal     | 6 bottles          | Snack Cake (x1)    |
| General Resident    | 1,800 kcal     | 2 bottles          | None               |
| Disciplinary Status | 1,200 kcal     | 0 bottles          | None (monitored)   |

**NOTE: Deliberate underreporting of caloric intake to game the allocation system will result in immediate reclassification to Disciplinary Status. Vault-Tec Nutritional Officers conduct random stomach-volume audits every third Tuesday.**

### SECTION 2: MANDATORY DAILY CALISTHENICS

Physical fitness is not merely encouraged — it is a prerequisite of continued residency. All residents aged 8 through 67 are required to participate in the Vault-Tec Morning Fitness Regimen (VTMFR). Attendance is logged automatically via Pip-Boy biometric sensors. Three consecutive absences will be referred to the Wellness Compliance Board.

| Time | Activity | Duration | Mandatory for |
|------|----------|----------|---------------|
|------|----------|----------|---------------|

|       |                                   |        |               |
|-------|-----------------------------------|--------|---------------|
| 05:30 | Wake Bell / Pip-Boy Check-In      | 5 min  | All Residents |
| 05:35 | Vault-Approved Stretching Routine | 10 min | All Residents |
| 05:45 | Aerobic Circuit (Atrium, Level 3) | 20 min | All Residents |
| 06:05 | Strength Conditioning             | 15 min | Ages 16-55    |
| 06:20 | Cool-Down & Vault Anthem          | 10 min | All Residents |

Residents with documented medical exemptions must submit Form VT-MED-004 (Fitness Waiver Application) to the Vault Physician no later than 48 hours prior to the fitness session in question. Retroactive exemptions are not accepted. The Vault Physician's availability is not guaranteed.

### SECTION 3: HYGIENE STANDARDS & SHARED FACILITY PROTOCOLS

The enclosed nature of Vault life demands an elevated standard of personal hygiene. The following regulations apply to all residential and communal spaces at all times:

**3.1 Shower Allocation:** Each resident is entitled to one (1) three-minute shower per 48-hour period. Water conservation sensors will terminate flow automatically. Attempts to defeat the flow sensor using foreign objects will result in loss of shower privileges for a period of no less than 30 days.

**3.2 Uniform Laundering:** Standard-issue Vault jumpsuits must be submitted to the Laundry Bay (Sub-Level 2, Room 14B) every 72 hours. Residents found wearing an unwashed jumpsuit beyond this window will receive a formal Hygiene Demerit logged to their permanent Vault record.

**3.3 Waste Disposal:** All biological and food waste must be deposited in the colour-coded receptacles located at each corridor junction. Yellow: organic matter. Blue: recyclables. Red: classified/redacted. Improper disposal is subject to a two-week sanitation duty assignment.

**3.4 Common Area Standards:** Residents are expected to leave communal areas — including the Atrium, cafeteria, and recreational bays — in the condition in which they found them. The Overseer's Office conducts spot inspections every Wednesday. Demerits accumulate on a rolling 90-day basis.

### SECTION 4: PROHIBITION ON HOARDING — DANDY BOY APPLES

It has come to the Resident Affairs Division's attention that several individuals have, in the months prior to sealing, accumulated unauthorised caches of Dandy Boy Apples. This practice is hereby declared a Class II Contraband Offence under Vault Regulation 7, Subsection 14 (*Hoarding and Stockpiling of Comestibles*).

***HOARDING OF DANDY BOY APPLES IS STRICTLY PROHIBITED. Maximum penalty: reassignment to Corridor Maintenance Detail (indefinite). Vault-Tec takes apple-based contraband extremely seriously.***

Residents are encouraged to report neighbours suspected of hoarding to their Floor Liaison Officer. Anonymous tip submissions may be placed in the Suggestion & Suspicion Box located outside Cafeteria Bay 2. Vault-Tec rewards civic-minded residents with a one-time bonus Nuka-Cola allocation upon confirmed report.

| Offence Tier | Description                               | Penalty                          |
|--------------|-------------------------------------------|----------------------------------|
| Tier I       | Possession of 3-10 cans (undeclared)      | 10-day ration reduction          |
| Tier II      | Possession of 11-25 cans or prior offence | 30-day sanitation duty + demerit |
| Tier III     | Possession of 26+ cans or repeat offender | Indefinite corridor reassignment |
| Tier IV      | Operating a distribution network          | Referral to Overseer's Court     |

## SECTION 5: GENERAL CONDUCT STANDARDS

- Residents shall address the Overseer as 'Overseer' at all times. First-name familiarity is not authorised unless explicitly granted via written permission (Form VT-OVR-009).
- Loud music, recreational shouting, or the playing of unauthorised instruments in residential corridors is prohibited between 21:00 and 06:00 (Quiet Hours). Harmonicas are banned at all hours.
- Romantic partnerships must be registered with the Vault-Tec Social Harmony Office. Unregistered cohabitation will result in room reassignment. Vault-Tec reserves the right to optimise pairings for genetic diversity without prior notice.
- Graffiti, modification of Vault signage, or defacement of the Vault-Boy mascot in any form is a Class III Artistic Misconduct Offence. This includes — but is not limited to — moustaches drawn on Vault-Boy posters.
- All disputes between residents must be submitted in writing to the Dispute Resolution Office (Level 4, Room 2A) within 72 hours of the incident. Physical altercations will result in both parties receiving Disciplinary Status regardless of who initiated contact.

---

### RESIDENT ACKNOWLEDGEMENT

*By accepting your Vault residency — a right you exercised implicitly upon entering the Vault and hearing the gear door seal behind you — you acknowledge full awareness of and binding compliance with all policies contained in this document. No signature is required. Vault-Tec thanks you for your understanding, your cooperation, and your continued existence.*

| Resident Name (Print) | Pip-Boy Serial No. | Floor Assignment | Date |
